

NIPPON PAINT

**NIPPON PAINT**

**Interior Textures**  
STONE SERIES | PUMICE STONE

Delivering an effect akin to the surface of natural sandstone, with granules and fragments eroded by rain and wind, Pumice Stone imparts an artistic relief texture.

The three-dimensional texture is tactile, exquisite, elegant and distinctive.

Stone Series

Pumice Stone

The gentle colour palette imparts a sense of warmth and elegance, exuding a discreetly luxurious and tranquil ambiance. The seamless harmony of soft colours effortlessly complements interior colour schemes, allowing you to masterfully coordinate your living spaces. Rich, deep shades, delicately applied, breathe new life into any colour palette. Used as a subtle accent in a small area or as a bold statement across a larger canvas, the layering of colours, monochrome or multi-hued, adds depth and sophistication to your surroundings.

Stone Series

Pumice Stone

The natural sandstone texture resembles the natural sedimentation of seaweed, organic and alluring. The repetition of concave and uneven surfaces creates a unique surface texture, ethereal and luxurious.

Features:  
 Natural sandstone, three-dimensional texture. Various colours, artistic and fashionable. Water-based formula, safe and environmentally friendly.

Due to variations in the substrate and application environment, the colours on the colour card are provided for reference purposes only.
