FOREWORD

Essentially, identifying emerging trend colours is key in capturing the rising opportunities in the marketplace and most importantly, in driving colour innovation. In creating market-leading trend colours that will and can redefine consumer's discernment, it is important to understand the various influences that drive consumer preference, especially in Asia.

As Asia's leading total coatings solution provider, Nippon Paint has taken on the leadership role in developing the Trending Asian Colour Palettes – a truly Asian Colour Palettes made by Asian Professionals.

In developing this series of mesmerising Asian colour palettes, Nippon Paint has strategically gathered renowned designers from across 11 countries in the Asian region to forecast emerging colours and trends in the industry. Through engaging and

assimilated colour forecasting workshops participated in by industry professionals such as architects, interior designers and design professionals, we were able to gather invaluable insights in exploring the possible impacts we could make through these trending colours.

Leveraging on our positioning as the Total Coatings Expert, Nippon Paint continues to stay committed in pushing the boundaries and driving efforts on the colour innovation front – as we now present to you our next installation of the **Trend Beyond Colours 2018/19**.

There are four inspiring key themes in the **Trend Beyond Colours 2018/19** - *"Transient Glow"*, *"Conscious Being"*, *"Essential Balance"* and *"Seeking Adventure"*. Each theme embodies eight distinctive colours which come in the form

of unique decorative coatings, with the ability to elevate the essence of Asia and influence the lives of its people. Apart from the decorative range, we are also unfolding a trend among Asians which is our maiden metallic range of colours to bring a differentiated approach and aesthetic value - to meet the needs of today's discerning consumers.

We are hopeful that the **Trend Beyond Colours 2018/19** shall and will become an integrated part of our consumers' lives today and tomorrow - inspiring them to re-think coatings and re-create possibilities on all surfaces. We believe that this book will serve as an inspiration to further unlock creative expressions across multi-cultural, multi-platforms and multi-industries, as we recognise the growing value of Asian consumers and the importance of staying ahead of future changes.

PUBLISHER'S LETTER

As colour trend forecasters, Colour Hive is often called upon to chart colour nuances around the world. We recognise and admire the uniquely rich and vibrant colour palettes of Asia; this dynamic region is increasingly setting the pace when it comes to forward-thinking colour innovation. This is why we were delighted to be involved in this project. Moreover, it was fascinating to see how our own independent findings dovetailed so perfectly with the comprehensive knowledge and insight shared with Nippon Paint's ambitious and comprehensive colour workshop.

We live in a time of unprecedented change, and believe that it is vital to embrace the opportunities of globalism and the inevitable impact that connectivity has on how we view colour. However, we also believe that there is a growing interest in celebrating and embracing regionalism; giving people colours that feel uniquely tailored to the lives that they lead rather than adopting a 'one size fits all' approach.

The four trends developed in this book reflect an in-depth analysis of future directions on multiple levels, both from a global perspective but also, and most importantly, encapsulating the spirit, energy and creativity of Asia.

OUR EVENT

Our colour forecasting process for 2018/19 began in March 2016, at NIPPON PAINT's colour workshop held in Bangkok where 65

A woman with glasses and a light-colored top is looking down at a document on a table. A man in a white shirt and glasses is standing next to her, also looking at the document. They are both wearing lanyards. The background shows other people and a trade show environment.

TREND INFLUENCES

Each season we work with a panel of Asian professionals to identify and decipher the socio-economic, lifestyle and technological trends that will shape the outlook for surfaces and colours.

For this season, there are six powerful influences that form the basis of the trend stories you will see in this Trend Beyond Colours 2018/19.

HUMANISED TECH

Our increasing dependence upon technology brings us to a new era in the relationship between man and machine. Tech is no longer merely a tool, it has become an ally and friend, it anticipates our needs and demonstrates human qualities of empathy, recognition and therapy. The possibilities in this vision influence our trend **Conscious Being**.

CHANGING SPACES

In this ever-evolving world the ideals of permanent structures are challenged, spaces become more fluid and architectural design becomes more transparent. As our future needs are unknown we design with flexibility in mind, inspired by the properties of water and glass. This inspiration drives the concept of our trend **Transient Glow**.

LIFE ON THE EDGE

As advances in technology allow us to live and work almost anywhere we are inspired to leave the comfort and safety of our homes in search of undiscovered places and new experiences. The fragility of the planet adds a sense of urgency to our travels. These feelings are expressed in the trend **Seeking Adventure**.

TIME ALONE

An increased longing for physical and spiritual calm is a direct consequence of our busy modern world. In a tranquil environment we are able to meditate, reflect and become attuned to the smallest of sensory stimulants. The feelings elicited here are explored fully in our trend **Essential Balance**.

FULL IMMERSION

As our environments become increasingly complex, designers are inspired to find more sophisticated ways to catch our attention. The impact of what we see is amplified with the introduction of sounds, smells and textures for a wholly sensorial experience. We reflect this important design development in different ways across all of our trends this season.

WATER WORLD

Our global resources are under unprecedented stress and as such, water and the oceans are regarded as vulnerable and precious. Designers are inspired by the unique properties of water and as individuals, an appreciation of the sea is realised in a growing trend for ocean diving holidays. We explore this through **Transient Glow** and **Seeking Adventure**.

01 TRANSIENT GLOW

DREAMLIKE
SURREAL
ELEGANT
SPIRITED
HARMONIOUS

Transient Glow takes us on an ethereal journey through a dreamlike palette. A resurgence in appreciation of the surrealist art movement hints at our attraction to the poetic and intriguing. The layers of transparency and light refraction create an optimistic and positive atmosphere with special resonance in the Asian market where an affinity with this style of design reflects an outward-looking culture.

Colour in Focus

An important element of *Transient Glow* is the movement and interplay of pinks and purples. Unifying this group is Latin Dance NP R 1309 A. This complex red-tinted purple is both dynamic and supportive and able to stand alone or blend, its shifting role is a mirror to the story as a whole.

PAINTED OBJECTS

Explore the range of possibilities in *Transient Glow*. Delicate layers create a poetic mood while interactions of solid pinks and purples reveal an unexpected harmony.

02 CONSCIOUS BEING

ARTIFICIAL
INDUSTRIAL
ELECTRIC
HUMANOID
ROBOTIC

We live in a digital age and with each day as technology becomes smarter and more intuitive we confront the blurring line between human and machine. In facing this uncharted territory, there is an equal feeling of excitement and natural tension. As a global leader in both development and interaction with technology, South East Asia is perfectly poised to embrace this trend of Conscious Being.

The **futuristic atmosphere** of Conscious Being is played out in a palette blended from **synthetic and organic tones** with vibrant **electric punches** and **industrial metallics** to harness the energy in technological advance. In the uncompromising definition of these hues lies a cool confidence and sophistication.

Metallic finishes combine to evoke a mechanical mood. In the iridescence of Velvet Pearl⁵ and the striking definition of Black Magic⁴ we are reminded of industrial machines. The smooth finish and warm undertone of Bleached Grey² bring a welcome human element making this combination perfect for interiors and offices.

This group of **cool greys and blues** is cut through with artificial brights for an arresting palette, ideal for hospitality spaces and public building exteriors. Using Textured Paint Sparkle Silver² and the dense Ebony Blue⁵ in larger proportions creates a quiet stage for So Orange¹ and Electrify³ to really pop.

COLOUR FLOW

Contemporary neutrals are the enduring foundation of our 2018/19 colour collection. A series of meditative pales float softly above soothing mineral mid tones, echoing the coolness of stone and the warmth of sand. Saturated bitter Tempest Brown and Black Magic anchor this vital group. Oranges and reds exist to deliver a punch of electricity and invigorating heat, while yellows drift easily into mellow landscape greens.

Our concise group of aquatics runs seamlessly into a range of complex and emotive blues. From the ethereal Memories to the shock of Electrify, this group is in turn immersive and stimulating. In an intriguing interplay of pinks and purples, the dreamlike poetry of Mountain Haze and Pink Balloon becomes at once dynamic and uplifting in Latin Dance and soothing in Grape Freeze and Blessed Purple.

COLOUR EVOLUTION

2015/16

2016/17

Cold Neutrals – This group expands significantly to reflect an increasing desire for meditative tones with an organic and minimal presence. Grounded in nature, these cool minerals are authentic and pure.

Gray Knight
NP N 2001 T

Warm Neutrals – Balancing the cool hues are a gentle series of delicate warms designed to cocoon and gently ground with subtly nuanced shades.

Dinosaur Gray

NP N 1904 A

Tavern Buff
NP N 1867 P

Volcanic Black
NP N 1918 A

Reds & Oranges – Playing a concise but vital role as dominant accents in more subtly toned palettes, look to this group for a sudden burst of excitement.

Carrothead
NP AC 2065 A

Being Peach
NP YO 1219 T

Fast Car
NP AC 2076 A

Yellows & Greens – The scope of natural yellow develops to incorporate its transition into landscape greens. A clear pop of sunshine adds clarity and optimism.

Yellow Jasmine
NP YO 1100 D

Esparina
NP BGG 1750 A

Green Tuft
NP BGG 1666 A

Turquoises – Aquatic greens reflect an evolving fascination with the ocean and this trio mirror the layers from clear shallows to inky depths.

Persian Blue
NP BGG 1588 T

Lush
NP BGG 1605 T

Blues – The range of Blues becomes more nuanced as its role increases. The collection broadens to incorporate subtle dreamy shades, an immersive dark and an electrifying bright.
