TREND
BEYOND
COLOURS
2018/19
FOREWORD

Essentially, identifying emerging trend colours is key in capturing the rising opportunities in the marketplace and most importantly, in driving colour innovation. In creating market-leading trend colours that will and can redefine consumers’ discernment, it is important to understand the various influences that drive consumer preference, especially in Asia.

As Asia’s leading total coatings solution provider, Nippon Paint has taken on the leadership role in developing the Trending Asian Colour Palettes—a study Asian Colour (trends made by Asian Professionals).

In developing this series of meaningful Asian colour palettes, Nippon Paint has strategically gathered renowned designers from across 11 countries in the Asian region to forecast emerging colours and trends in the industry. Through engaging and assimilated colour forecasting workshops participated in by industry professionals such as architects, interior designers and design professionals, we were able to gather invaluable insights in exploring the possible impacts we could make through these trending colours.

Leveraging on our positioning as the Total Coatings Expert, Nippon Paint continues to stay committed in pushing the boundaries and elevating efforts on the colour innovation front—as we now present to you our new installation of the Trend Beyond Colours 2018/19.

There are four inspiring key themes in the Trend Beyond Colours 2018/19—“Transcend Glow”, “Chromatic Being”, “Essential Balance” and “Steering Adventure”. Each theme embodies eight distinctive colours which come in the form of unique decorative coatings, with the ability to elevate the essence of Asia and influence the lives of its people. Apart from the decorative range, we are also unfolding a trend among Asians which is our maiden metallic range of colours to bring a differentiated approach and aesthetic value— to meet the needs of today’s discerning consumers.

We are hopeful that the Trend Beyond Colours 2018/19 shall and will become an integrated part of our consumers’ lives today and tomorrow—inspiring them to rethink coatings and re-imagine possibilities on all surfaces. We believe that this book will serve as an inspiration to further unlock creative expressions across multi-platforms, multi-platforms and multi-industries; as we recognise the growing value of Asian consumers and the importance of staying ahead of future changes.

As colour trend forecasters, Colour Hive is often called upon to chart colour nuances around the world. We recognise and admire the uniquely rich and vibrant colour palettes of Asia, this dynamic region is increasingly selling the pace when it comes to forward-thinking colour innovation. This is why we were delighted to be involved in this project. Moreover, it was fascinating to see how our own independent findings dovetailed so perfectly with the comprehensive knowledge and insight shared with Nippon Paint’s ambitious and comprehensive colour workshop.

We live in a time of unprecedented change, and believe that it is vital to embrace the opportunities of globalism and the inevitable impact that connectivity has on how we see colour. However, we also believe that there is a growing interest in celebrating and embracing regionalism; giving people colours that feel uniquely tailored to the lives that they lead rather than adopting a ‘one size fits all’ approach.

The four trends developed in this book reflect an in-depth analysis of future directions on multiple levels, both from a global perspective but also, and most importantly, encapsulating the spirit, energy and creativity of Asia.
Our colour forecasting process for 2018/19 began in March 2016, at NIPPON PAINT’s colour workshop held in Bangkok where 65 of Asia’s foremost design and colour enthusiasts from 11 different countries were invited to share their thoughts, knowledge and forecast on colour. Working in groups and focusing on important factors such as economy, society, technology and business, we were able to distil the gathered information and create a unique Asian trend palette for 2018 and beyond.

To develop these initial concepts into working colour palettes, we enlisted the services of global trend and colour authority Colour Hive. With their experience in working with trend panels across the world and their specific understanding of the Asian market, they were readily attuned to our perspective, and were able to develop upon our colours from within their own forecasts.
HUMANISED TECH

Our increasing dependence upon technology brings us to a new era in the relationship between man and machine. Tech is no longer merely a tool; it has become an ally and friend, it anticipates our needs and demonstrates human qualities of empathy, recognition and therapy. The possibilities in this vision influence our trend Conscious Being.

CHANGING SPACES

In this ever-evolving world the ideals of permanent structures are challenged; spaces become more fluid and architectural design becomes more transparent. As our future needs are unknown we design with flexibility in mind, inspired by the properties of water and glass. The inspiration drives the concept of our trend Transient Glow.

TREND INFLUENCES

Each season we work with a panel of Asian professionals to identify and decipher the socio-economic, lifestyle and technological trends that will shape the outlook for surfaces and colours.

For this season, there are six powerful influences that form the basis of the trend stories you will see in this Trend Beyond Colours 2018/19.
LIFE ON THE EDGE

As advances in technology allow us to live and work almost anywhere, we are inspired to leave the comfort and safety of our homes in search of undiscovered places and new experiences. The fragility of the planet adds a sense of urgency to our travel. These feelings are expressed in the trend Seeking Adventure.

TIME ALONE

An increased longing for physical and spiritual calm is a direct consequence of our busy modern world. In a tranquil environment we are able to meditate, reflect and become attuned to the smallest of sensory stimuli. The feelings elicited here are explored fully in our trend Essential Balance.

WATER WORLD

Our global resources are under unprecedented stress and as such, water and the oceans are regarded as vulnerable and precious. Designers are inspired by the unique properties of water and as individuals, an appreciation of the sea is realised in a growing trend for ocean living holidays. We explore this through Transient Glow and Seeking Adventure.

FULL IMMERSION

As our environments become increasingly complex, designers are inspired to find more sophisticated ways to catch our attention. The impact of what we see is amplified with the introduction of sounds, smells and textures for a wholly sensual experience. We reflect this important design development in different ways across all of our trends this season.
01 TRANSIENT GLOW
Transient Glow takes us on an ethereal journey through a dreamlike palette. A resurgence in appreciation of the surrealist art movement hints at our attraction to the poetic and intriguing. The layers of transparency and light refraction create an optimistic and positive atmosphere with special resonance in the Asian market where an affinity with this style of design reflects an outward-looking culture.
In Transient Glow, ethereal elements are balanced with a sharp intrigue. Delicate atomic hues seek to capture the fleeting moment, while intense and dynamic tones uplift and excite. In the spirit of weightlessness, a sense of refracted light is played out in shimmering and pearlescent finishes.

Architecture is given a weightless feel in this harmonious exterior combination. In a gradient effect the semi-opaque finish of Trendy Purple 1 brings an intriguing aspect to woods as Gossamer White 1 and Pink Balloon 4 enhance the ethereal mood. A cooling breeze of Optical Seismic Sea 3 adds a sophisticated dimension to the pastel base.

A duo of dynamic purples is enhanced with a haze of Cloud Pearl 1, the layered effect of these shimmering tones on ceilings or a feature wall creates a dreamlike space. Brightens smaller rooms, hallways and stairways with a key accent of Yellow Pendant 1.

Create an immersive environment with textures. A combination of Royal Mist, Silver Drama and Velvet Pearl 1 with its subtle purple undertones, is a multi layered surrealist intrigue. Highlight with a finishing haze of Sparkle Silver 4. This versatile palette is equally effective for interior and exterior use.
Combine natural materials and uplifting pastels in open spaces.

ENGAGING PASTELS

The intriguing elements of Transient Glow are a perfect palette for dynamic and creative design. Vivid interactions of purple create excitement in exteriors, architecture and public spaces.

Intriguing Purples

- Purple
  1. Yellow Ponder X0 Y0 Z5 T
  2. Pink Fizz X9 Y5 T5 F
  3. Coquettish White X9 Y9 Z5 F

- Almost Pink
  1. Yellow Ponder X0 Y0 Z5 T
  2. Grape Fizz X9 Y5 Z5 A
  3. Satin Base X9 Y5 Z5 A

Applications
**HARMONIOUS TONES**

Imitating the colours we observe when light is refracted creates a natural harmony.

Subtle gradients and prismatic tones create a mood of gentile optimism. In an interplay of ethereal and blurred effects, a sense of dreamy lightness is enhanced.

Options:
1. Grappa (NCS 6040 Y)
2. Lunis Blanc (NCS 1010 Y)
3. Yellow Pendant (NCS 5505 Y)

Below left:
1. Yellow Pendant (NCS 5505 Y)
2. Pink Balcony (NCS 1010 Y)
3. Grappa (NCS 6040 Y)

1. Grappa (NCS 6040 Y)
2. Grappa (NCS 6040 Y)
3. Yellow Pendant (NCS 5505 Y)

All colours shown in the book are as close to the actual NCS paint colour as modern printing techniques permit.
PLAYFUL COMBINATIONS

Experience happiness and wellbeing through playful pastel combinations.

Opposite:
1. Pink Balloon NP R 1328 P
2. Hibiscus White NP W 008 1915 P
3. Yellow Petulant NP Y D 1505 T
4. Delicate Dandelion NP W G D 1106 P

Below:
1. Guacamole White NP W 098 1915 P
2. Metallic Penny Pin NP M T 916
3. Grape Frost NP AC 2390 A

Colour in Focus
An important element of Translucent Glow is the movement and interplay of pinks and purples. Unifying this group is Latin Dance NP R 1309 A. This complex red-tinted purple is both dynamic and supportive and able to stand alone or blend, its shifting role is a mirror to the story as a whole.

Explore the range of possibilities in Translucent Glow. Delicate layers create a poetic quality while interactions of solid pinks and purples reveal an unexpected harmony.

PAINTED OBJECTS

All colours shown in this book are as close to the actual Kraton pastel colours as current printing technology permits.
OPEN YOUR MIND TO THE OPTIMISTIC AND DREAMLIKE SHADES OF TRANSIENT GLOW. ENHANCE FEELINGS OF CREATIVITY AND POSITIVITY IN THIS POETIC PALETTE OF PURE PASTELS, PINKS AND PURPLES.
02 CONSCIOUS BEING
We live in a digital age and with each day as technology becomes smarter and more intuitive we confront the blurring line between human and machine. In facing this uncharted territory, there is an equal feeling of excitement and natural tension. As a global leader in both development and interaction with technology, South East Asia is perfectly poised to embrace this trend of Conscious Being.

So Orange
NP AC 2064 A

Remembrance
NP CW 1053 P

Black Magic
NP N 1988 A
The futuristic atmosphere of Conscious Being is played out in a palette blended from synthetic and organic tones with vibrant electric punches and industrial metallics to harness the energy of technological advance. In the uncompromising definition of these hues lies a cool confidence and sophistication.

Metallic finishes combine to evoke a mechanical mood. In the iridescence of Velvet Pearl 1 and the striking definition of Black Magic 4 we are reminded of industrial machines. The smooth finish and warm undertone of Bleached Grey 3 bring a welcome human element making this combination perfect for interiors and offices.

This group of cool greys and blues is cut through with artificial brights for an arresting palette, ideal for hospitality spaces and public building exteriors. Using Textured Paint Sparkle Silver 4 and the dense Ebony Blue 1 in larger proportions creates a quiet stage for So Orange 1 and Electrify 1 to really pop.

This calming group reduces noise to a minimum. Against a canvas of whisper-soft Remembrance grey 1, the deep tone of Blessed Purple 2 grounds and accents. Special effects of Optical 4 or Metallic Gypsy Blue 4 add another dimension making this a beautiful choice for the home and especially bedrooms.
POPS OF COLOUR

Bring a futuristic feel to building exteriors with electric shocks of colour.

The human and synthetic dynamism of this palette enables diverse combinations. From the blend of multi-hued cool tones in quiet spaces to the invigorating and intellectually stimulating blues that enliven social areas.

True Blues

Opposite
1. Farrow & Ball No 1753

3. Farrow & Ball No 1753 P.

All colours shown in the book are as close to the actual paint as market printing techniques permit.
Dark blue and purple add a soothing sophistication to meditative spaces.

**DARK ATMOSPHERES**

Public buildings and social spaces come alive with the energy of the Consciousness palette. Artificial elements provide micro flashes of futurism against more organic and human design.

**SYNTHETIC FEEL**

All colours shown in the book are as close to the actual Farrow & Ball colour as modern printing techniques permit.
Embrace the synergy of man and machine in engineered styling and energetic tones.

INDUSTRIAL STYLE

Colour in Focus

Essential to the synthetic and sometimes cold aspect of the palette is the zesty vibrance of
5a Orange NP AC 2064 A.
This naturally uplifting shade is thought to turn our thoughts to physical comforts and, as
an appetite stimulator, it is a thoughtful addition to a restaurant or dining room "feature wall."

The metallic tones add versatility to the palette as they can be applied to objects as well as
interior and exterior. The Metallic Olive Green works as a lively green-gold accent against cooler tones.

All colours shown in this book are as close to the actual Nippon Paint colour as modern printing techniques permit.

UNEXPECTED JOLTS OF COLOUR.
03 ESSENTIAL BALANCE
With a meditative approach, Essential Balance reflects our innate need to take time out in quiet reflection. As we strip back the unnecessary to focus on the vital, we experience renewed appreciation of slow crafts and a natural aesthetic. In a region such as Asia with its multiple cultures, it is the universality of this message that unifies.

ESSENTIAL
TRANQUIL

Harrison Gray
NP N 1912 T

Abacadabra
NP N 2034 P

Drifting Cloud
NP OW 1035 P
Referencing nature, Essential Balance has a strong connection to the raw organic world and uses warming neutrals and timeless tonal shades to comfort and calm. Subtle colours combine with organic surfaces and refined special effects for a sense of purity and restful quality.

Tinted greys are paired to create a subtle and calming atmosphere, referencing a connection to raw natural aesthetics. The soft shades of Harrison Grey¹ and Abacada² are further grounded by the natural looking special effect paints. Discover elemental purity with this pairing and create a timeless elegance that is a balanced option for exterior applications.

The cool greyed-off hues of Trojan Grey³ and Bed Time Stories⁴ combine with natural surfaces for a tranquil and quiet gifting. The purity of Drifting Cloud⁵ is warmed by pearlescent effects and red wood tints. These colours and special effects invite touch and have a slow and peaceful atmosphere, ideal for interior applications.

Reassuring warm tones combine for a soothing option, where glowing Spoonbread⁶ and tinted Mountain Haze⁷ join to create a comforting atmosphere. Build a personal sanctuary with the cooing colours and organic natural surfaces within this grouping to create moments of restful serenity. A solution well suited to public spaces.
WARMING ATMOSPHERE

Tonal shades combine in the Essential Balance palette for a sense of quiet tranquility. Use these warm and cool neutrals to create a restful and comforting atmosphere, ideal for interior and exterior applications.

Warming highlights echo a sense of reflective quiet that creates a timeless elegant look. Sophisticated palettes are enhanced with the diverse neutrals of Essential Balance, the ultimate option for interiors.

All colours shown in the book are as close to the actual Repro Flat color as market printing techniques permit.
Enhance the comfort of your spaces by adding cozy knitted textiles.

COCOONING

Enhance the comfort of your spaces by adding cozy knitted textiles.

COLOUR IN FOCUS
A key colour to highlight from Essential Balance is: Temperate Brown MP N 1897. A. Noting a return of natural brown shades for 2018/19, this deep, warm and comforting tone provides calming depth for interiors. Apply to feature walls or use as a contrasting accent for a premium feel.

ZEN & MEDITATIVE
Highlight the key details of your spaces with the light and soft shades of Essential Balance. Breathing a freshness into spaces, this palette focuses on minimalist aesthetics and considered colour combinations.

All colour swatches in this book are as close to the actual paint finish colour as modern printing techniques permit.
DISCOVER AN ESSENTIAL BALANCE AND CREATE A MEDITATIVE CALM WITH THESE SHADES. OFFERING A SENSE OF CLARITY AND A TOUCH OF ELEGANCE, THESE DIVERSE NEUTRALS CREATE A MOMENT OF REFLECTION AND A TIMELESS SENSE OF TRANQUILITY.
04 SEEKING ADVENTURE
Travel the world and explore the unknown in Seeking Adventure.
As we understand the environmental challenges faced by our planet, we feel a sense of urgency to experience it at its fullest. In the Asia region, adventure follows afflinsce with a developing fascination with deep sea diving signaling an urge to roam more freely. From the highest mountain to the deepest ocean, it's time to awaken the explorer within us all.

NP N 1617 P

Flint Black
NP N 2009 A

Green Shoot
NP BG 1730 D
The engaging combinations in Seeking Adventure are realised through a fine use of the special effect range in concert with a palette of saturated nature tones and organic neutrals. These diverse yet nuanced brights speak to an excitement in nature’s treasures while mineral shades ground us in the moment.

The watery abyss is summoned in a multi level palette of ocean inspired tones. From the inky depths of Flint Black\(^1\) we surface through aquatic blues with an application of Momento Textured Series on Elegant Atlantis\(^2\), Ultra Blue\(^3\) and Harbour\(^4\) to an impression of a dry, sandy shore.

Inspired by Asian skies and terrains, the natural interplay of Memories\(^1\) and Green Shoot\(^2\) is an exercise in visual balance. In the layered Momento Enhancer Series of Snow Frost\(^3\) we find ourselves transported to snowy mountain caps, the bleached tint of Mercury Grey\(^4\) reflecting nature at altitude and bleached by the elements.

We pay tribute to the earth beneath our feet in celebrating the simplicity of Pebble Walk\(^1\) in a greater proportion. In the Gold Frost glaze on Turned Earth\(^2\) and the reassuring Wood Varnish Oak\(^2\) we connect with the beauty in nature’s surfaces, while the red duo remind us of it’s dramatic possibilities.
Deep blues

Rich and immersive blues are among the most exhilarating of nature’s hues.

Adventurous Red

As an accent in a social space, at home, or as a feature in exterior architecture, a punch of Coral Expression or Knockout Red brings the more delicate mineral tones to life.

Applications
EYE-CATCHING FACADES

Echoing extreme nature with an attention-grabbing display of colours.

Opposite:
1. Ultra Blue NP N 7570 A
2. Coral Expression NP 1275 D
3. Helium NP AC 2108 A

Basecoat:
1. Periwinkle NP N 2016 A
2. Helium NP AC 2108 A
3. Helium Wash NP N 5817 P
4. Coral Expression NP P 1275 D

Joining right:
1. Memories NP P N 5171 P
2. Helium Wash NP N 8177 P
3. Coral Expression NP P 1275 D

Aquatic tones reveal their versatility in creating moods from clarity and serenity to uplifting and invigorating. Pair with layered darks for a reflective feel, or accent with brights for immediate joy.

UNDERWATER ATMOSPHERE

All colours shown in this book are as close to the actual Nippon Paint colours as modern printing techniques permit.
**BOLD ACCENTS**

Recreate that thrilling adventure with a pitch perfect pop of colour.

**NATURE INDOORS**

**Colour in Focus**

The most mysterious and unexplored depths of the sea are central to the allure of this story. In the saturated blue green of Harbour NP AC 2108 A we meet a composed, yet honest, colour that encapsulates the spirit of Seeking Adventure.

Indulge your inner biophilic by adding succulents, greyness, and natural materials to your private spaces and offices. Bring nature indoors with these harmonious natural tones.

1. 1 Ultra Blue NP 98 5507 A
2. Harbour NP 97 5108 A
3. Snowload Red NP 1261 A

1. 1 Black NP 9 A 1877 P
2. Jet Black NP 97 1904 A
3. Core Shade NP 9B 1379 B

All colours shown in this book are as close to the actual Ryerson Paint colour as modern printing techniques permit.

Applications 133
THROW CAUTION TO THE WIND AND EMBARK ON AN ADVENTURE INTO THE UNKNOWN. OPEN YOUR EYES AND HEART TO THE BEAUTY OF THE RUGGED AND UNEXPLORED IN THIS BOLD AND AUTHENTIC PALETTE.
COLOUR FLOW

Contemporary neutrals are the enduring foundation of our 2018/19 colour collection. A series of meditative pales float softly above soothing mineral mid tones, echoing the coolness of stone and the warmth of sand. Saturated bitter Tempest Brown and Black Magic anchor this vital group. Oranges and reds exist to deliver a punch of electricity and invigorating heat, while yellows drift easily into mellow landscape greens.

Our concise group of aquatics runs seamlessly into a range of complex and emotive blues. From the ethereal Memories to the shock of Electric, this group is in turn immersive and stimulating. In an intriguing interplay of porks and purples, the dreamlike poetry of Mountain Haze and Pink Balloon becomes at once dynamic and uplifting in Latin Dance and soothing in Grace Freeze and Blessed Purple.
